JUDICIAL CULT MONOPOLY = SLAVERY

The Judiciary is a forced religion. Public courts are captured by the colonial ideology of sovereignty. This capture exploits people as chattel, living property, of a monopoly bank. The root of this imperial lore is in legal colonial **titles**. Remember that title is a legal handle to ownership.

Who here today is a true believer in the colonial ideology of sovereign monopoly? The entire world is under the global religion of the *Judiciary*. It is drummed into children even before the first day of school. The trader's ideology of sovereign imperialism is above all other religions. The *Judiciary* is a cult enforcement arm. The *Judiciary* is a forced religion above any other doctrine. Remember that a statement of sovereignty is not secular.

The sovereign notion that teenagers are contractable at 18 is child abuse. No one is a master until counting themselves at least 30 times around the sun. Conscription of teenagers, into war, is slavery as is monopoly currency.

Is the Israeli shekel an effective monopoly in Palestine today? Can Palestinians spend their Israeli shekels anywhere in Israel? Remember that the profits and the damages, from Apartheid, come from the forced separation of people from markets.

Militarily enforced Exclusive Economic Zones are in no way a free market for the forced subjects of monopoly.

End Global Apartheid. Publish ***MONOPOLY = SLAVERY*** on your monopoly money.
